(only XP2 or T400CN) No E6 reversal service.

Spectrum Imaging are Closing Late June 2010

Films MUST arrive by Sat 19 July No Films after !

WE will be unable to return work received late

Dear Film Enthusiast.

Spectrum have processed film for 24 years, but sadly will close our doors in late June 2010. Our business lease has come to an end, and we cannot justify committing to another 10 years in a constantly changing technological environment.

We have loved working with all Lomo/Holga/Diana/Pinhole/Toy Camera enthusiasts, and choosing to close is one of the most difficult decisions I have ever made.

I have tried to seek a good alternative lab, but modern processing equipment does not come with good film scanning facility, so I don't know who to suggest.

Please can you pass word amongst the Toy camera community that we are closing and to stop sending us work. We will honour all films we get by Saturday 19th June, so send us all the spares ASAP!

After 19/6/10 we will have to draw a line, and will not be able to return work after we close and move out end of June 2010.

WE are all really sorry, and very grateful for your support.
Love n Best Wishes,

Phil, Tracy, Jess, and Lisa. Spectrum Imaging 7/5/2010

Films We Cannot Process

Any films we need to return because we cannot process them will be charged £1.50 per roll post/pack

No Film After Saturday 19th June 2010

Post & Pack (UK Only) Work typically dispatched in 1 work day of receipt.

We return work by 1st class post in 1 or 2 envelopes. One pack contains film, other contains prints/cd etc. Spectrum accept no responsibility for postal loss.

Spectrum Imaging 8, St Mary's Place, Newcastle. NE1 7PG. 0191 261 1101
